DR. MOHTASHAMI

Lisa King explains her experience at All Bright Dental.

I finally made the decision to get a smile makeover. I had good teeth to start with, but being the person that I am, I wanted better. I work in a professional environment and feel like a great smile is an important asset and certainly makes an impressive first impression. With this major decision already made, I was on the search for the perfect dentist.

As a result of the environment I work in, I am very familiar with modern dental techniques, procedures and materials so I had a general idea of the work I wanted to have done on my teeth. I did my research of cosmetic dentists in the Las Vegas area by checking their experience, quality-of-work and comfort.

I have known and worked with Dr. Mohtashami on and off over the past seven years. I decided to schedule a cosmetic evaluation in which I met with the doctor and reviewed countless before and after photos. I found that Dr. Mohtashami and his team more than met the criteria I was looking for. I left confident knowing that Dr. Mohtashami is known to be a perfectionist and wants his patients to have the most beautiful smile possible. Therefore, my decision was not difficult to make – he was my chosen dentist.

Dr. Mohtashami explains the procedures he performed for Lisa.

Lisa is a beautiful woman who wanted to improve the look of her teeth. She had a gummy smile and didn't like the shape of her teeth. I performed laser recontouring on her gums, whitened her teeth and placed MAC porcelain veneers in her smile zone. These are thin shells of porcelain that are bonded onto the front surface of a tooth to improve its cosmetic appearance.

Lisa started with a good smile therefore it took a lot of planning and detailed work to give her the amazing smile she has now. She wanted the Hollywood smile, yet as natural as it could be. We achieved that and even exceeded her expectations. Now Lisa's great personality shines through her smile. I think it is the little countless details that make the difference between mediocre and magnificent, and she now has a magnificent

Dr. Mohtashami seeks to deliver the highest standard of excellence in dentistry with the goals of improving your oral health and providing you with a more beautiful smile. The All Bright Dental team seeks to create a warm and welcoming atmosphere starting from the moment you schedule your first appointment. One of Dr. Mohtashami's priorities is educating his patients on the nature of their dental problem or condition and pros/cons of available treatment options. For more information or to schedule your Complimentary Smile Consultation please contact the friendly All Bright Smile Team at (702) 220-6666.

Are You Considering a Smile Makeover? Consider All Bright Dental.

During my evaluation, Dr. Mohtashami's suggested that I have laser recontouring done on my gums, teeth whitening and MAC porcelain veneers placed on my smile zone. I can honestly say, I was pleasantly surprised how easy the experience was, from beginning to end. From the attractiveness of the office, to the professionalism with the All Bright team, it was an A+ experience. The staff was kind and I noticed that they treated every patient like they should be treated – with individual attention. They even relieved me of the mild dental anxiety I generally experience. The best part of this process was that the smile makeover took only two visits.

My new smile has given me a whole new confidence and I enjoy how I feel! I sought out perfect teeth and that is what I got. It seems funny to me; everywhere I go people ask about my smile – it becomes a true conversation piece. I feel that it is a new accessory that will last a lifetime. It was certainly an investment that was worth making, both personally and professionally.

I highly recommend All Bright Dental to anyone interested in a smile makeover. It's the best investment you will ever make.

smile! The confidence I see in Lisa when she smiles is why I enjoy what I do everyday!

An extreme smile makeover can do more than change a patient's smile; it can rejuvenate their life. It's amazing how a new smile can help you look and feel years younger. Many people, like Lisa, who have undergone the experience feel a new sense of confidence and well-being as well as enhanced professional and personal relationships. It's something that can set you apart from the crowd and define the way people perceive you. It's widely accepted that looking your best can be important in career satisfaction and success. A dazzling smile can give you confidence in everything you do. Best of all, even the most extreme smile makeover can be completed in two or three easy, comfortable visits. What better way to show the world the true you than with a beautiful new smile!
