Dr. Mohtashami

Why did you get a Smile Makeover?

I work in a professional environment and feel like a good smile is an important asset. A good smile makes a great first impression.

Why did you choose All Bright Dental?

I have actually known and worked with Dr. Mohtashami for over 6 years. I am very familiar with modern dental techniques, procedures and materials. I know he is a perfectionist. He only uses the best materials available and he is never satisfied if his work isn't exactly right.

Since you know the business, what surprised you most about the experience?

I was pleasantly surprised how easy the experience was, from beginning to end. The office is beautiful and the All Bright Dental team is fantastic. They are kind and treat every patient like they should be—with individual attention. If you have any dental anxiety, they minimize it. That was very important to me because I have some mild dental anxiety myself.

What do you like most about having a new smile?

I enjoy how I feel. I did it for me, I wanted perfection and that is what I have; a natural, yet perfect smile.

Do you have any advice for anyone interested in having a smile makeover?

I would say that when looking for a cosmetic dentist in the Las Vegas area, research their training, experience, quality-of-work and comfort. Dr. Mohtashami and his team more than fit the criteria, and they have countless before and after photos and testimonials to prove it.

DR. MOHTASHAMI EXPLAINS THE PROCEDURES HE PERFORMED FOR LISA.

What procedures did you perform to improve Lisa's smile?

Lisa had a gummy smile and she didn't like the shape of her teeth. I did some laser recontouring of her gums, gave her teeth a whitening and I placed MAC porcelain veneers in her smile zone. It has made an amazing difference in her smile.

How long did it take to perform this procedure?

The team and I were able to complete Lisa's smile makeover in just two visits to our office. This is what many cosmetic dentists refer to as 'instant orthodontics'.

What challenges did her case offer?

This was a great challenge because Lisa had a good smile to begin with; therefore, it took a lot of planning and detailed work to give her this amazing smile she has today. Lisa wanted the Hollywood smile, yet as natural as it can be. I think we achieved that and even exceeded her expectations. Now Lisa's great personality will shine through her smile. I think it is the little countless details that make the difference between mediocre and magnificent, and Lisa now has a magnificent smile! The confidence I see in Lisa when she smiles is why I enjoy what I do everyday.

Dr. Mohtashami seeks to deliver the highest standard of excellence in dentistry with the goals of improving your oral health and providing you with a more beautiful smile. The All Bright Dental team seeks to create a warm and welcoming atmosphere starting from the moment you schedule your first appointment. One of Dr. Mohtashami's priorities is educating his patients on the nature of their dental problem or condition and pros/cons of available treatment options. For more information or to schedule your Complimentary Smile Consultation please contact the friendly All Bright Smile Team at (702) 220-6666.
